

QUALITY POLICY

General de Motores de Sabadell, S.L with VAT B62328463, headquarters and facilities at C.Narcis Monturiol, 19-21 08203 Sabadell Barcelona:

It is a company whose **scope** is: design, assembly, commercialization and after-sales of the Parts Positioning System.

From our facilities in Sabadell with a managerial, technical and productive staff with more than 20 years of experience in the sector, we carry out our technical assistance services in **custom equipment**.

Our mission is to offer a **comprehensive project service** with our team of internal and external professionals, with the best quality standards in all areas, with the main objective of seeking **customer satisfaction**.

Therefore GMS, operates under the following **premises**:

- **Constant improvement**, with special emphasis on the relationship and communication with its customers.
- **Detect and control** any non-compliant service or incident, in the most initial state possible.
- **Adopt corrective and preventive measures** for non-conformities and incidents, to avoid their recurrence.
- **Continuous training** of our staff, promoting **internal communication**.
- **The awareness, motivation and participation** of our staff at all levels in the quality system together with the information and training necessary so that the development of their activity is **consistent with the quality and environment policy**, based on the principles of the UNE EN ISO 9001: 2015 and 14001: 2015, which is reviewed and updated annually with the approval of the Management.
- **Selection of suppliers**, given their importance in the final quality of the products and services offered.
